

ABSTRACT OF THE DISCLOSURE

A method, system and computer program product for processing a URL (uniform resource location) request
5 containing a URL for an intended URL document, comprising:
retrieving fingerprint information relating to the URL
request; identifying that the intended URL document is not
the current document located at the URL; locating current
fingerprint information which matches the retrieved
10 fingerprint and has a corresponding URL document; and
returning the corresponding URL document in answer to the
request.
